More wallets supporting VN
Smart Chain will enable VN pay
cross-border business to
acquire more users

META Smart Chain

- META Smart Chain is an integrated DeFi public chain aimed at creating metaverse infrastructure with maximized performance and a diverse system.
- An ecosystem that consists of stablecoins, decentralized exchanges, and GameFi.
- Combines with NextPay's millions of users to create a metaverse ecosystem.
- META Smart Chain relies on VNDT's digital wallet, which can greatly facilitate the application of DeFi. Anyone can participate in the aggregated mining of DApps on VN Smart Chain through the VNDT wallet at any time, and they can also make profit by simply holding it.

Digital Payment Seamlessly Integrates Stablecoins

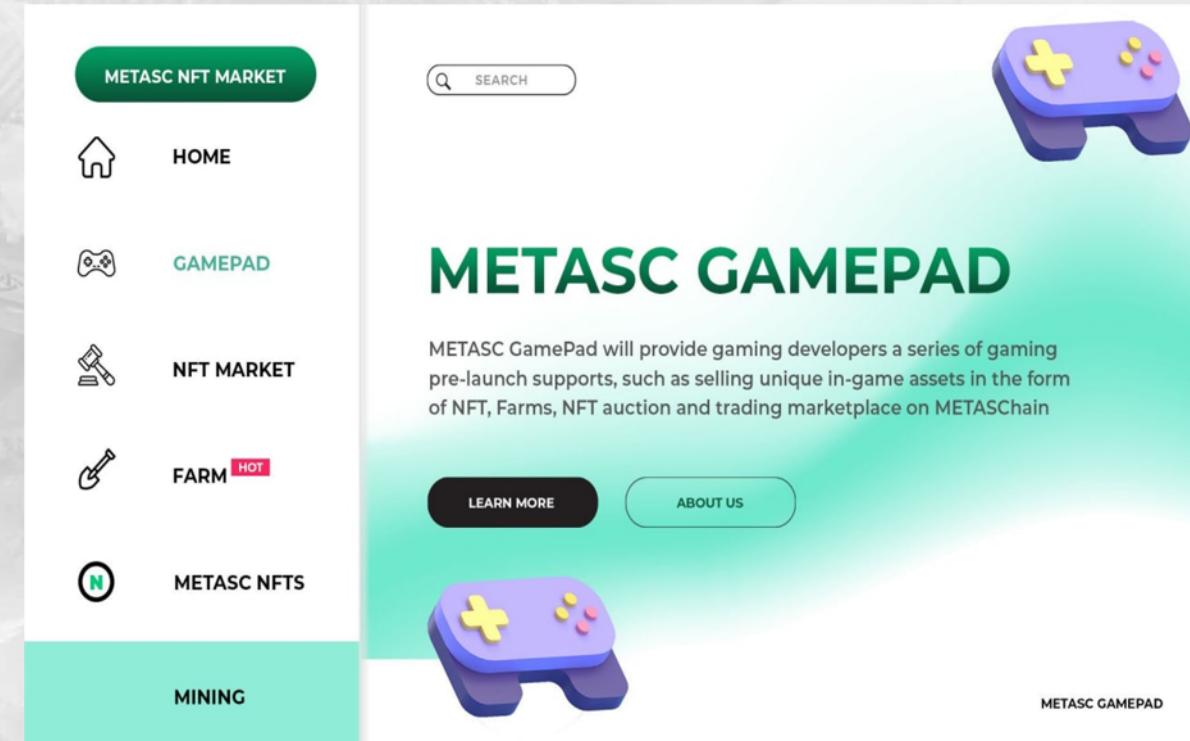

- Through the META Smart Chain coin minting protocol, a variety of stable coins are anchored across the chain using VNT, and the exchange rate is adjusted by smart contracts
- Seamless integration of stable coin and Visa/Mastercard payment
- Get 10% cashback with no annual fee, when use crypto for the payment.

Payment + Game Publishing Ecosystem

Fundamentals of the Metaverse

- METASC will provide metaverse games with many elements such as friendship, marriage, pets, warfare, community communication, maps, and synthesis, based on the virtual world of the network and blockchain
- Allowing play to earn through tasks, characters and equipment PVE, teaming, and character PVP, for example, to get game ecosystem tokens and earn NFT rewards.
- By using the digital wallet of the ecosystem, more than 100+ cryptocurrencies around the world can be traded, and all merchants are connected under the payment license that can be used as a real life payment
- Adding the functions of real life goods to the game to further enable the ecosystem of metaverse in-game payment, harvesting products, and enjoying services in reality.

The image shows a screenshot of the METASC Gamepad interface. At the top left is a green button labeled "METASC NFT MARKET". To its right is a search bar with a magnifying glass icon and the word "SEARCH". On the far right is a purple 3D-style game controller icon. Below these are five menu items: "HOME" (with a house icon), "GAMEPAD" (with a game controller icon), "NFT MARKET" (with a hammer icon), "FARM HOT" (with a shovel icon), and "METASC NFTS" (with an NFT icon). A teal-colored bar at the bottom has the word "MINING" written on it. The background of the interface is a gradient from white to light blue. The overall theme is gaming and blockchain integration.

props can be traded at the marketplace.

ROAD MAP

VNT TOKENOMICS

TOTAL SUPPLY 1,000,000,000

LP liquidity, minting 60 months vesting

VNT ACQUISITION AND

ATTRIBUTE

DESCRIPTION

- VNT is the METASC public chain token, which will be used as a fee for METASC public chain transactions, contract deployment, and node elections.
- VNT will launch on BSC first when “Dynasty of Heroes” launches, and enables the cross chain to METASC after its mainnet launch.
- VNT holders are the creator of the METASC metaverse.
- The large-scale metaverse battle game ‘Dynasty of Heroes’, supported by METASC ecosystem, is a new generation of play and earn game.
- METASC will continue to incubate Metaverse games, and VNT will be the only game token on the platform.
- More than 7 games are going to launch within the following 6 months.
